TABLE OF CONTENT

1. INTRODUCTION

Now a days the life style of the people is different. People feel uncomfortable and time consuming for going crowded markets. So, E-Shopping is a boon as it saves lot of time. Online shopping is a process whereby consumers directly buy goods, services etc. from a seller without an intermediary service over the Internet. Shoppers can visit web stores from the comfort of their house and shop as by sitting in front of the computer. Online stores are usually available 24 hours a day and many consumers have internet access both at work and at home. So, it is very convenient for them to shop Online.

Gr@zia is an e-commercial shopping website providing user with good product with high quality of product. We inspire consumer to make fashion and lifestyle choices that best suit them. We offer wide range of product men, kids, women and accessories. We offer mix of brand across established national brands, international brand, luxury brand, and emerging labels and designers.

1.1 Objective

Online shopping is the process whereby consumers directly buy goods and services over the internet. The goal of this website is to develop a web-based interface for consumers all over India, the website would be easy to use and hence the shopping experience pleasant for the consumers. The main goal of this website is:

1. To develop an easy-to-use web-based interface where user can search for the products, view a complete description of the product and order the product.
2. Bring inspiration and joy to people, everywhere, every day.
3. We occasional introduce new deals and new offer to the consumers.

1.2 Scope

This system can be implemented to any shop in the locality or to multinational branded shops having retail outlet chains. The system recommends a facility to accept the orders 24*7 and a home delivery system which can make customers happy.

If shops are providing an online portal where their customers can enjoy easy shopping from anywhere, the shops won't be losing any more customers to the trending online shops such as flipkart or eBay. Since the application is available in the Smartphone it is easily accessible and always available.

2.HARDWARE AND SOFTWARE REQUIREMENT

2.1 Hardware requirements:

Processor	Intel CORE i3
RAM	8.0 GB
Hard disk Drive	500GB

2.2 Software requirements:

Number	Description
1	Window 7,8,10
2	HTML/ Css / SQL / Selenium
3	PHP 5.5.38
4	Compiler: notepad, Visual studio, sublime, Eclipse 2022-0.9
5	Apache version: Apache/2.4.64(win64) OpenSSL/1.0.2h PHP/5.5.388
6	Browser: Chrome, Firefox, Microsoft Edge and Opera

3 SYSTEM DESIGN

3.1 use case diagram
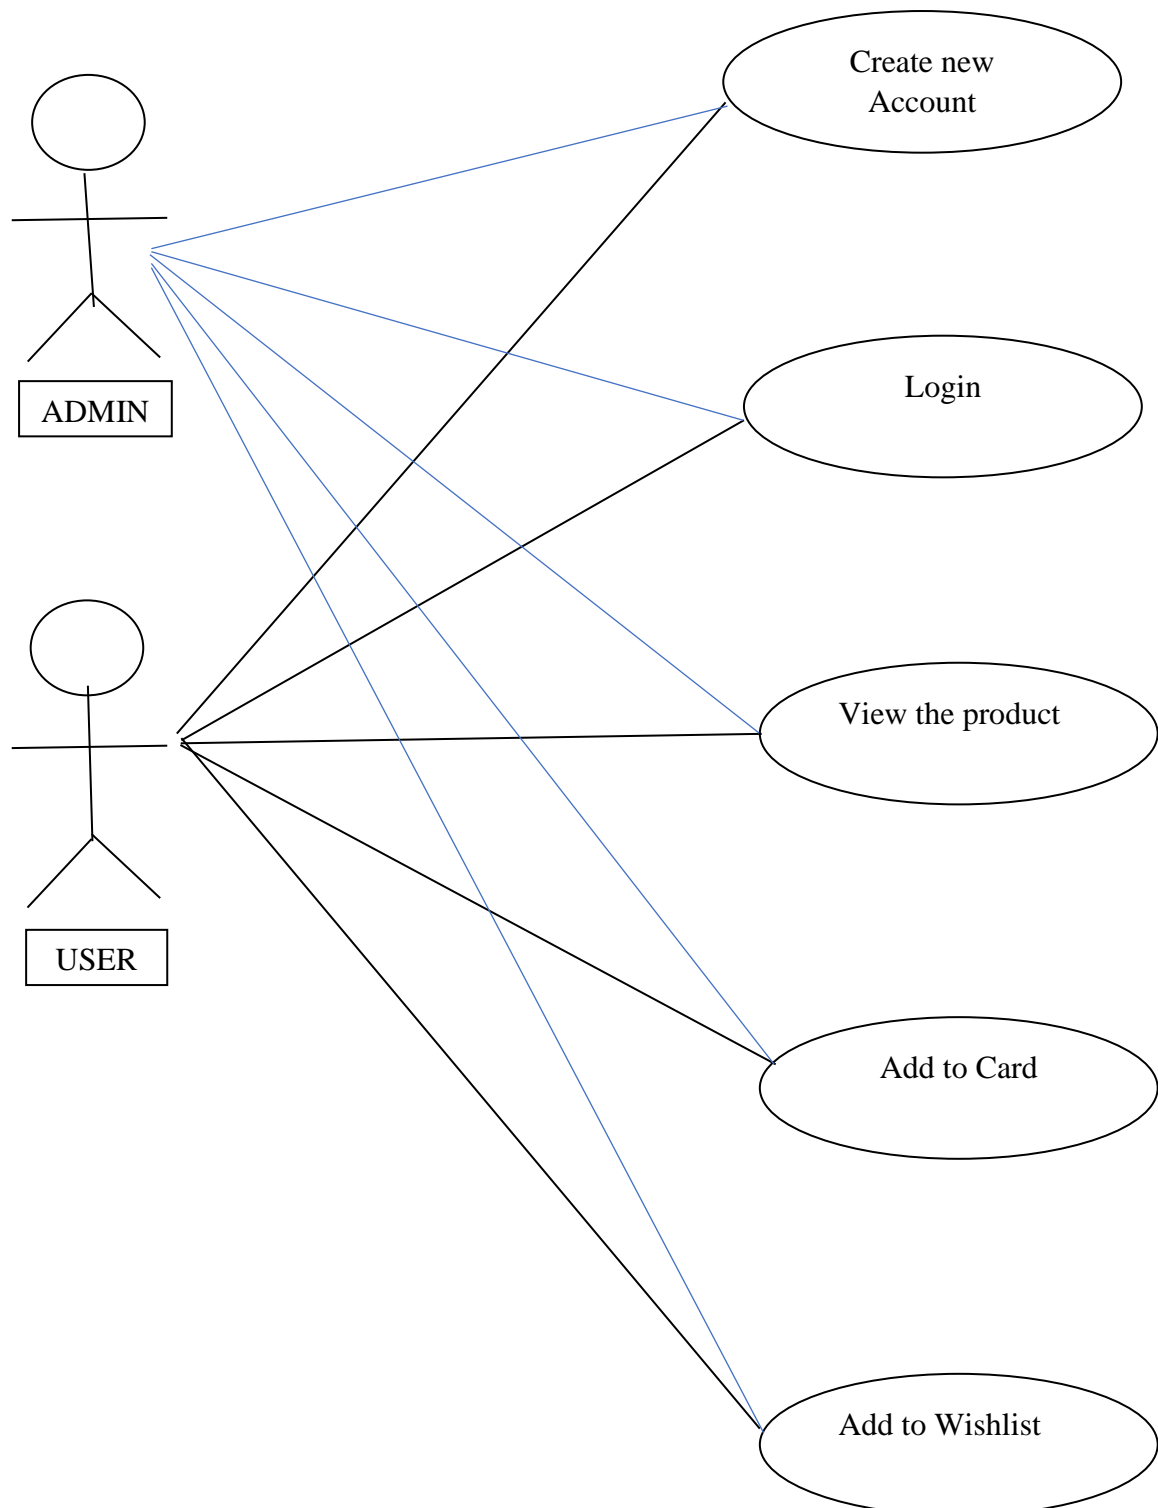

3.1.1 Use Case Table

Use Case	Actor	Descriptions
Create new Account	User And Admin	User have to Enter • First Name • Last Name • Gender • Email ID • Password
Login	User And Admin	User have to entre • Username • Password
View Product		• A customer logs in to Gr@zia website • Registered customer selects items to purchase. [Exception: Required color, shape]
Add to Cart		• A customer logs in to Gr@zia website • Registered customer select items to purchase • Registered customer add item to shopping cart
Add to Wishlist		• A customer logs in to Gr@zia website • Registered customer selects items to purchase • Registered customer add item to Wishlist

3.1.2 Use case Description

I. **Use Case Name:** Gr@zia Shopping cart

Summary:

This use case describes how the user can browse the catalog, view his/her cart, add to or remove items from the cart, edit the quantities or empty his/her shopping cart. All scenarios result in the persistence of the cart items, so the user can retrieve his/her cart between sessions.

Actors: Registered customer, Admin.

Preconditions:

1) Customer must have shopping items in cart.
2) The Gr@zia website must have shopping items for customer to purchase and add in shopping cart
3) Customer must have internet plus computer, smartphone, Tabs, laptop and similar device to access Gr@zia.

Post conditions:

The customer pays for with the item added in cart after checking it out. And the order is marked active for shipping. Size is not available online to purchase.

Description ("Registered customer"):

1. A customer logs in to the Gr@zia website.
2. Registered customer selects items to purchase. [Exception: Required colour, shape]
3. Registered customer adds item to shopping cart.
4. Customer checks out
5. The Gr@zia admin then creates and updates order for given customer
The use case terminates at this point.

II. **Use Case Name:** Creating Account Gr@zia

Summary:

This use case describes how the user Can create new account

Actors: Registered customer, Admin.

Preconditions:

1) User have to go on Gr@zia website
2) User have to click on login and the click on create account.
3) User have to entre

- o First Name
- o Last Name
- o Gender
- o Email ID
- o Password

Post conditions:

The customer has to entre valid credentials to the given text box

Description ("Registered customer"):

1. A customer logs in to the Gr@zia website.
2. User have to entre valid Credentials to given text box.

III. **Use Case Name:** Login Account Gr@zia

Summary:

This use case describes how the user Can Login to the Gr@zia Website

Actors: Registered customer, Admin.

Preconditions:

1)User have to go on Gr@zia website

2)User have to click on login

3)User have to entre

- o Username
- o Password

Post conditions:

The customer has to give valid credentials

Description ("Registered customer"):

1. A customer logs in to the Gr@zia website.
2. User have to entre valid Credentials to given text box.

IV. **Use case name:** Ship a product to customer

Summary:

A customer has placed order for a product along with his payment details.

Actors: Admin, Customer

Pre-conditions:

Access to e-Shop, Product availability, Authorized payment method

Description:

1. Customer logs into e-Shop.

2. He likes a product and adds to cart. He checkouts cart using appropriate payment method

3. Admin monitors transaction and on successful payment ships the product to address specified.

Exceptions:

4. Payment not authorized. In that scenario – admin has to reject the current transaction and contact user.

5. Delay in shipping as product arrives late from the supplier.

Product Listing
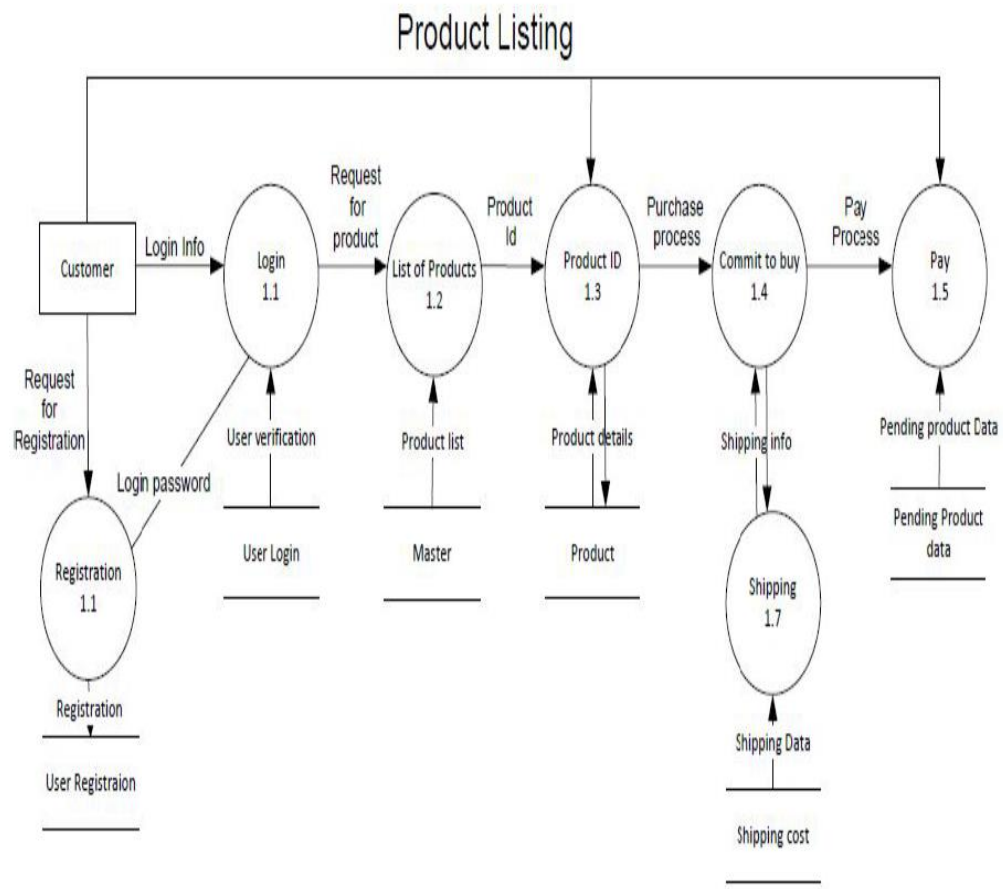

4.IMPLEMENTATION

4.1 Technologies use:

➤ HTML

HTML, XML: Hyper Text Markup Language and Extensible Markup Language are the predominant markup languages for web pages. It provides a means to describe the structure of text-based information in a document and to supplement that text with interactive forms, embedded images and other objects.

➤ CSS

CSS is the language for describing the presentation of Web pages, including colors, layout, and fonts. It allows one to adapt the presentation to different types of devices, such as large screens, small screens, or printers. CSS is independent of HTML and can be used with any XML-based markup language. The separation of HTML from CSS makes it easier to maintain sites, share style sheets across pages, and tailor pages to different environments. This is referred to as the separation of structure (or: content) from presentation.

➤ JAVASCRIPT

JavaScript is a scripting language that enables you to create dynamically updating content, control multimedia, animate images, and pretty much everything else. (Okay, not everything, but it is amazing what you can achieve with a few lines of JavaScript code.)

➤ SELENIUM:

Selenium is one of the most widely used open-source Web UI (User Interface) automation testing suite. It was originally developed by Jason Huggins in 2004 as an internal tool at Thought Works. Selenium supports automation across different browsers, platforms and programming languages.

Selenium can be easily deployed on platforms such as Windows, Linux, Solaris and Macintosh. Moreover, it supports OS (Operating System) for mobile applications like iOS, windows mobile and android.

Selenium supports a variety of programming languages through the use of drivers specific to each language. Languages supported by Selenium include C#, Java, Perl, PHP, Python and Ruby. Currently, Selenium Web driver is most popular with Java and C#. Selenium test scripts can be coded in any of the supported programming languages and can be run directly in most modern web browsers. Browsers supported by Selenium include Internet Explorer, Mozilla Firefox, Google Chrome and Safari.

4.1 Module

- ➤ **Registration:**
  A new user will have to register in the system by providing essential details in order to view the products in the system. The admin must accept new user by unblocking him.

- ➤ **Login:**
  A user must login with his username and password to the system after registration.

- ➤ View Product:
  User can view the list of products based on their names after successful login. A detailed description of a particular product with product name, products details, product image, price can be viewed by users.

- ➤ **Search Product:**
  Users can search for a particular product in the list by name.

- ➤ **Add to cart:**

The user can add the desired product into his cart by clicking add to cart option on the product.

He can view his cart by clicking on the cart button. All products added by cart can be viewed in the cart. User can remove an item from the cart by clicking remove.

- ➤ **Buy Now:**
  After confirming the items in the cart the user can submit the cart by providing a delivery address. On successful submitting the cart will become empty.

<h1>
THE GR@ZIA
<br>
FASHION EXPERIENCE
</h1>
<p>
We launched Gr@zia Fashion in 2022, as a
curated and managed marketplace with an
endeavor to inspire consumers to make
fashion and lifestyle choices that best suit
them. We have a wide assortment of
```

offerings, across price points, to cater to
women, men and children of diverse
demographics. Presently, Gr@zia Fashion
houses 1,500+ brands and over 1.8 million
products across five consumer segments:
women, men, kids, tech and home. Within
these consumer segments, we merchandise
across several categories including western
wear, Indian wear, lingerie, footwear, bags,
jewelry, accessories, athleisure, home décor,
bath, bed and kitchen in order to cater to the
diverse consumer's journeys across our platform.
We offer a mix of brands across established
national brands, international brands,
luxury brands, and emerging labels and designers.
```
</p>
</div>
</div>

<div class="quote-container"><center>
<span class="quote-icon"> " </span>
<p1>
```
"I think women today are ready to be inspired and shop in a way that trulyinspires
them. It's less about discounts and more about trend and quality."
```
</p>
<p2>
```
This is mirrored in our mission statement -
```
</p>
<h3>
```
Inspiring Indians, both men and women to make fashion & lifestyle choices that
best suit them.
```
</h3>

            <h1>Nykaa's Responsible Disclosure Policy</h1>
            <p>Nykaa takes the security of our systems and data privacy very seriously.

            We constantly strive to make our systems safe for our customers to use. However,
            if in the rare case a security researcher or member of the general public discovers a
            security vulnerability in our systems and responsibly shares the details with us, we
            appreciate their contribution and work closely with them to address any reported
            issue with urgency. Further, we are happy to acknowledge your contributions
            publicly.</p>
            <h4>Process to report an issue</h4>
            <p>E-mail your findings to it-security@nykaa.com . Please share your contact
            information with your mobile number.
            Do provide enough information to reproduce the problem, so we will be able to
            resolve it as quickly as possible.
            Do not take advantage of the vulnerability or problem you have discovered, for
            example by downloading more data than necessary to demonstrate the vulnerability
            or deleting or modifying other people's data
            Do not reveal the problem to others until it has been resolved
            Do not use attacks on physical security, social engineering, distributed denial of
            service, spam, etc</p>
            <h4>Acknowledgements</h4>
            <p>We are not part of a cash/bug bounty program but are happy to issue a certificate
            of recognition to individuals who report security issues responsibly and help us
            make Nykaa systems more secure</p>

   <h1>Terms & conditions</h1>
    <p>This document is an electronic record in terms of Information Technology
Act, 2000 and rules there under as applicable and the amended provisions pertaining
to electronic records in various statutes as amended by the Information Technology
Act, 2000. This electronic record is generated by a computer system and does not
require any physical or digital signatures.

      This document is published in accordance with the provisions of Rule 3 (1) of
the Information Technology (Intermediaries guidelines) Rules, 2011 that require
publishing the rules and regulations, privacy policy and Terms of Use for access or
usage of www.Gr@ziafashion.com ("Website").

      Welcome to [Gr@zia FASHION] ("" Company or "Site" or "Application").
This Site is owned and operated by Gr@zia Fashion Private Limited ("Gr@zia
Fashion"). Gr@zia Fashion provides an online platform ("Site") for connecting
Users and it does not own any Products or discharge services listed on its Site.</p>

      <h4> Use of this site</h4>
```

<p>Gr@zia Fashion Private Limited is a company incorporated under the provisions of the Companies Act, 2013 with its registered office at 104, Vasan Udyog Bhavan, Sun Mill Compound, S.B. Marg, Tulsi Pipe Road, Lower Parel, Mumbai 400 013. You may be accessing our Site from a computer or mobile phone device (through an iOS or Android application, for example) and these Terms of Use govern your use of our Site and your conduct, regardless of the means of access. Gr@zia Fashion through the Site intends to provide its users a premium curated collection of designer wear to help the affluent fashion-conscious woman evolve her unique style. We aim to create an online experience that is just as indulgent as the process of buying a fashion item in store. The site will be focused on offering a curated assortment, convenience and customer service to help meet the needs of the demanding premium / luxury fashion buyer.

The Site is only to be used for your personal non-commercial use and information. Your use of the services and features of the Site shall be governed by these Terms and Conditions (hereinafter "Terms of Use") along with the Privacy Policy, Shipping Policy and Cancellation, Refund and Return Policy (together "Policies") as modified and amended from time to time.

For the purpose of these Terms of Use, wherever the context so requires "You" or "User" shall mean any natural or legal person who has agreed to access the Website. By mere accessing or using the Site, you are acknowledging, without limitation or qualification, to be bound by these Terms of Use and the Polices, whether you have read the same or not. ACCESSING, BROWSING OR OTHERWISE USING THE SITE INDICATES YOUR AGREEMENT TO ALL THE TERMS AND CONDITIONS IN THIS AGREEMENT, SO PLEASE READ THIS AGREEMENT CAREFULLY BEFORE PROCEEDING. If you do not agree to any of the terms enumerated in the Terms of Use or the Policies, please do not use the Site.

You are responsible to ensure that your access to this Site and material available on or through it are legal in each jurisdiction, in or through which you access or view the site or such material.

Gr@zia Fashion reserves the right to change the particulars contained in the Terms of Use or the Policies from time to time and at any time, without notice to its users and in its sole discretion. If Gr@zia Fashion decides to change the Terms of Use or Policies, Gr@zia Fashion will post the new version of the Terms of Use or the Policies on the Site and update the date specified above. Any change or modification to the Terms of Use and the Policies will be effective immediately from the date of such upload of the Terms of Use and Policies on the Site. Your continued use of the Site following the modifications to the Terms of Use and Policies constitutes your acceptance of the modified Terms of Use and Policies whether or not you have read them. For this reason, you should frequently review these Terms of Use, our Guidelines and Rules and any other applicable policies,

including their dates, to understand the terms and conditions that apply to your use of the Site.</p>

<h4>Privacy Policy</h4>

<p>Gr@zia Fashion may use your Personal Information such as name, e-mail, postal addresses, phone number(s), IP addresses, product interest information and in certain circumstances, your opinions and individual preferences, etc;, (collectively "Personal Information") collected:

send you or your friends, relatives or associates, products that you have ordered;

process gift card transaction;

help us learn more about your shopping preferences; or

conduct marketing and performance research to assist us in measuring our customer services, benchmarking our performance and to help us improve your shopping experiences and product offerings.

to send communication related to order updates and offers through e-mail, SMS and social media channels.

You may always choose not to receive promotional materials or marketing information.</p>

<h4>Platform For Transaction & communication</h4>

<p>The Site is a platform that Users utilize to meet and interact with one another for their transactions and is anonline platform. Gr@zia Fashion is not and cannot be a party to or control in any manner any transaction between the Site's Users.

Through this online platform, Gr@zia Fashion only aims to be provide the platform through which buyers and sellers interact and all commercial/contractual terms are offered by and agreed to between Buyers and Sellers independently. These include without limitation the price, shipping costs, payment methods, payment terms, period and mode of delivery, warranties, after sales services, replacement/returns and refunds, related to products and services. Gr@zia Fashion does not and will not have any control or does not determine or advise or in any way involve itself in the offering or acceptance of such commercial/contractual terms between the Buyers and Sellers. All discounts, offers (including exchange offers) are by the Seller/Brand and not by Gr@zia Fashion .

Placement of order by a Buyer with Seller on the Website is an offer to buy the product(s) in the order by the Buyer to the Seller and it shall not be construed as Seller's acceptance of Buyer's offer to buy the product(s) ordered. The Seller retains the right to cancel any such order placed by the Buyer, at its sole discretion and the Buyer shall be intimated of the same by way of an email/SMS. Any transaction price paid by Buyer in case of such cancellation by Seller, shall be refunded to the Buyer. Further, the Seller may cancel an order wherein the quantities exceed the typical individual consumption. This applies both to the number of products ordered within a single order and the placing of several orders for the same

product where the individual orders comprise a quantity that exceeds the typical individual consumption. What comprises a typical individual's consumption quantity limit shall be based on various factors and at the sole discretion of the Seller and may vary from individual to individual.

Gr@zia Fashion is not responsible for any non-performance or breach of any contract entered into between the Buyers and Sellers. It does not and cannot guarantee that any transaction entered into between the Buyers and Sellers will be concluded by such Users and it shall not intervene in any dispute/disagreement between the Users whether through mediation or through any other means to resolve the dispute/disagreement between the Users.

Gr@zia Fashion is not assuming liability and shall not be held liable in any manner whatsoever on account of any monetary loss or other damage suffered by the Customer for delay or failure of delivery, interruption, or corruption of any data or other information transmitted in connection with use or operation of the Platform, . It shall not have any obligations or liabilities in respect of any contract entered into by the Users and it shall not be responsible for unsatisfactory or delayed performance of services or damages or delays as a result of Products that are out of stock, unavailable or back ordered.</p>

<h4>Mode of Payment</h4>
<p>Payments for the products available on the Site may be made in the following ways

Payments can be made by Credit Cards, Debit Cards, Net Banking, Wallets, e-Gift cards, Cash on Delivery and reward points.
Credit card, Debit Card and Net Banking payment options, Wallets, e-Gift cards are instant payment options and recommended to ensure faster processing of your order.</p>
<h4>Shipping & Delivery</h4>
<p>We endeavour to dispatch your order within the time as committed on the product page, however due to unforeseen circumstances, the dispatch of your order can take up to [7] business days. You will be intimated via email upon dispatch of the order. Once the order is dispatched, it normally takes [2-5] business days for delivery within India and [7-10] business days for deliveries outside India. Unforeseen circumstances on the logistics provider's/Seller's end may cause delays for which Gr@zia Fashion shall not be liable.

Customs & Import Duties Information for International Orders
You may be subject to import duties that are levied once the package reaches your country. Additional charges for customs clearance must be borne by You; Gr@zia Fashion has no control over these charges and cannot predict what they may be. Customs policies vary widely from country to country, you should contact your local customs office for further information. Additionally, when ordering from Gr@zia Fashion, you are considered the importer on record

and must comply with all laws and regulations of the country in which you are receiving the merchandise.</p>

<h1>
Shipping & Return Policy
</h1>
<h2> Shipping</h2>
<h4>What is the cost of shipping?</h4>
<p>
```
For all orders above Rs. 1000, shipping is done free of cost. A shipping charge of Rs. 99 is applicable to all orders under Rs. 1000.
```
</p>
<h4>
```
How long will it take for the order to reach me?
```
</h4>
<p>
```
Please refer the product page for estimated shipping and delivery timelines for both domestic and international orders. From the time of order placed, it takes about 5-7 days for domestic orders and 7-10 days for international orders to reach you.

If you have placed an order with multiple items, please note that your items may arrive in multiple shipments. The estimated delivery times are indicative, and, on some occasions, there might be some unavoidable delays beyond our control. We will keep you informed in case of any delays.
```
</p>
<h4>
```
What can I do if my order dispatch is delayed?
```
</h4>
<p>
```
We will try our best to get your products to you within the estimated delivery times. If the package has not reached you by the expected delivery date, please write to us at support@Gr@ziafashion.com or call us on 1800-266-3333 (Monday to Saturday, 10AM to 7PM) and we will try our best to resolve your issues.
```
</p>
<h4>
```
My order has been shipped. Can I track it?
```
</h4>
<p>
```
For orders within India, once your order has been dispatched, you can track the order from My Order section.

You can track the status of your package 24 hours after your order is dispatched from our warehouse or vendor location
</p>

<h2>Returns, Refunds, Cancellations and Exchanges</h2>
<h4>
What is the return policy on Gr@zia Fashion?
</h4>
<p>

Most of our products are eligible for return and replacements for domestic orders. There are some items that are Made to order which are not eligible for returns. The return and exchange policy for every product is clearly mentioned on the product page. Please note that international orders are not eligible for returns or exchanges.

If the product is eligible for return/ replacement, you can raise the return/ replacement request from My Order section in App within 7 days of delivery to request return and replacement. Only products which are unused, unworn, unwashed, undamaged, with all its labels and tags completely intact, in original packaging and eligible for return only can be returned/ replaced.
</p>
<h4>
How are returns processed?
</h4>
<p>

Once you request to return a product, a pick up is organised for the item. Our courier partners will come to pick up the item within 3-5 business days after your return request has been received. Once pickup is done, your refund will be initiated from our end.
</p>
<h4>
Can I cancel my order?
</h4>
<p>

You can cancel your order within 24 hours of order through My Order section. You can also write to us at support@nykaafashion.com or call us on 1800-266-3333 (Monday to Saturday, 10AM to 7PM).

**Gr@zia Fashion reserves the right to cancel any order without pre-confirming the customer at any time and may verify any order before shipping the same to the customer that may include having a verbal or written confirmation from the customer.
</p>
<h4>
How will I receive the refund for my cancelled or returned product?
</h4>
<p>

In case of prepaid orders, money will be returned to the bank account/ credit/debit card where the payment was made from. For Cash on Delivery orders customers will be required to provide bank details/UPI ID where they would like to receive the refund.
</p>
<h4>
How long does it take to receive a refund for a cancelled order or returned product?
</h4>
<p>
We will process your refund within 3 business days in case of cancellation of an order. In case of returns, we will refund the money after the product has been picked up by our courier partner.
</p>
<h4>Can I return part of my order?</h4>
<p>
Yes. You can return any products that are eligible for returns within 7 days of delivery. Please do note there are some items that are not returnable or exchangeable.
</p>
<h4>
My garment does not fit me. What can I do?
</h4>
<p>
If the product does not fit and you would like a new size, please request for a size exchange through My order section or the customer service team within 7 days of receiving the product. In some cases, minor size and fit alterations might be available for orders placed within India. Our team will try its best to help you for any size exchanges, alterations subject to availability. In case the size you have requested is not available we will offer you the option to return the product instead.
</p>

5.3 Database connectivity

```php
<?php
$server = "localhost";
$username = "root";
$password = "";
$dbname = "login form";
$con = mysqli_connect($server, $username, $password, $dbname);
if(!$con)
{
    echo "not connected";
}
$username = $_POST['username'];
$password = $_POST['password'];
$sql      =    "INSERT    INTO    `login`(`username`,    `password`)    VALUES ('$username','$password')";
$result = mysqli_query($con , $sql);
if($result)
{
    echo "data submitted";
}
else
{
    echo "query failed.....!";
}
?>
```

6 SYSTEM TESTING

6.1 Software Testing:

Software is a set of instructions or programs that tell a computer what to do. It can be divided into two main categories i.e., system software and application software.

System software includes the operating system and all the utilities that help keep the computer running. Application software includes programs that do specific tasks, such as word processing or playing games.

Other types of software, including: middleware, driver software, programming software.

Software testing can be divided into two steps:
1)   Verification: it refers to the set of tasks that ensure that the software correctly implements a specific function.
2)   Validation: it refers to a different set of tasks that ensure that the software that has been built is traceable to customer requirements.

Black box

Black box testing is a type of software testing in which the functionality of the software is not known. The testing is done without the internal knowledge of the products.

White box Testing

White box testing techniques analyze the internal structures the used data structures, internal design, code structure and the working of the software rather than just the functionality as in black box testing. It is also called glass box testing or clear box testing or structural testing.

Gray Box Testing

Gray Box Testing is a software testing technique which is a combination of Black Box Testing technique and White Box Testing technique. In Black Box Testing technique, tester is unknown to the internal structure of the item being tested and in White Box Testing the internal structure is known to tester. The internal structure is partially known in Gray Box Testing. This includes access to internal data structures and algorithms for purpose of designing the test cases.

6.2 Types of Testing

6.2.1 **Functional testing:** Functional testing is a kind of black-box testing that is performed to confirm that the functionality of an application or system is behaving as expected.
It is done to verify all the functionality of an application.

6.2.2 **Unit testing:** the application is ready and given to the Test engineer, he/she will start checking every component of the module or module of the application independently or one by one, and this process is known as Unit testing.

6.2.3 **Sanity testing:** Testing that is done to ensure that all the major and vital functionalities of the application/system are working correctly. This is generally done after a smoke test.

6.2.4 **Smoke testing:** Testing that is done after each build is released to test to ensure build stability. It is also called as build verification testing.

6.2.5 **Regression testing:** Testing performed to ensure that adding new code, enhancements, fixing of bugs is not breaking the existing functionality or causing any instability and still works according to the specifications.
Regression tests need not be as extensive as the actual functional tests but should ensure just the amount of coverage to certify that the functionality is stable.

6.2.6 **Integration testing:** When the system relies on multiple functional modules that might individually work perfectly, but have to work coherently when clubbed together to achieve an end to end scenario, validation of such scenarios is called Integration testing.

6.2.7 **Beta/Usability testing:** Product is exposed to the actual customer in a production like an environment and they test the product. The user's comfort is derived from this and the feedback is taken. This is similar to that of User Acceptance testing.

6.2.8 **Non-functional testing:** Non-functional Testing is a type of Software Testing that is performed to verify the non-functional requirements of the application. It verifies whether the behavior of the system is as per the requirement or not.

6.2.9 **Performance testing:** A type of testing to ensure that a software program or system meets specific performance goals, such as response time or throughput.

6.2.10 **Load testing:** A type of testing to ensure that a software program or system can handle a large number of users or transactions.

6.2.11 **Security testing**: A type of testing to ensure that a software program or system is secure from unauthorized access or attack.

6.2.12 **Scalability testing:** A type of testing to ensure that a software program or system can be scaled up or down to meet changing needs.

6.2.13 **Stress testing:** A type of testing to ensure that a software program or system can handle an unusually high load.

6.2.14 **Usability testing:** A type of testing to ensure that a software program or system is easy to use.

6.2.15 **Volume testing:** A type of testing to ensure that a software program or system can handle a large volume of data.

6.3 Testing Methodologies

6.3.1 Unit testing:

Log In:

a. Identification and Password properly initiated, encrypted, and validated

b. MySQL injection test

c. Checking for uppercase, lowercase, number, special character in ID and password

d. Either of ID and password not blank

e. Checking for overlapping ID

f. Checking for weak passwords

g. Not available to minors without permission from parents

h. Checking for e-mail notification about making ID and initiating password

Login and start shopping:

a. Correctly validated before staring a shopping

b. Not possible to check out products which is already in progress

c. Displaying list of all available products

d. Checking for newest version products place on first page.

e. Checking for exact number of products stocks

f. Checking for available coupon information

g. Checking for visibility about previous history of search

h. Checking for system about suggestion for newest version of products

Payment:

a. Certification username and card information for security

b. Consumer payment for money in proper order

c. Certification for expiration month and year

d. Certification about CVS number

e. Certification for redemption of credit card points

Shipping:

a. Checking for available address information

b. Checking for private information and updated address

c. Chargeable or no chargeable for shipping

d. Checking about time for shipment

e. Checking for type of shipping.

Logout:

a. Search history saved properly after logout

b. Checking out information saved in database

c. Customer redirected to the login screen

d. Checking e-mail system about purchasing information

6.3.2 Integration testing:

We consider the Gr@zia as a black box and white box; also check up all of the parts. Also, we will conduct as following orders:

Creating test plans, performing code review of the application modules that integrate the application block, executing the use cases of the application, performing load testing, performing stress testing, performing globalization testing and perform security testing.

• System compatible with different web browsers (for eg. Google chrome, Fire fox, IE

etc.)

• System compatible with different Operating System (Widows, Linux, and Mac)

• System compatible with 32 bit or 64 bit operation

• Stress testing against a large number of customers

• Stress testing against a large number of purchasing in one product

6.4 Equivalence class partitioning and Boundary analysis:

Boundary Analysis:

Boundary testing is the process of testing between extreme ends or boundaries between partitions of the input values.

So these extreme ends like Start- End, Lower- Upper, Maximu6.4m-Minimum, Just Inside-Just Outside values are called boundary values and the testing is called "boundary testing".

The basic idea in normal boundary value testing is to select input variable values at their:

- Minimum
- Just above the minimum
- A nominal value
- Just below the maximum
- Maximum
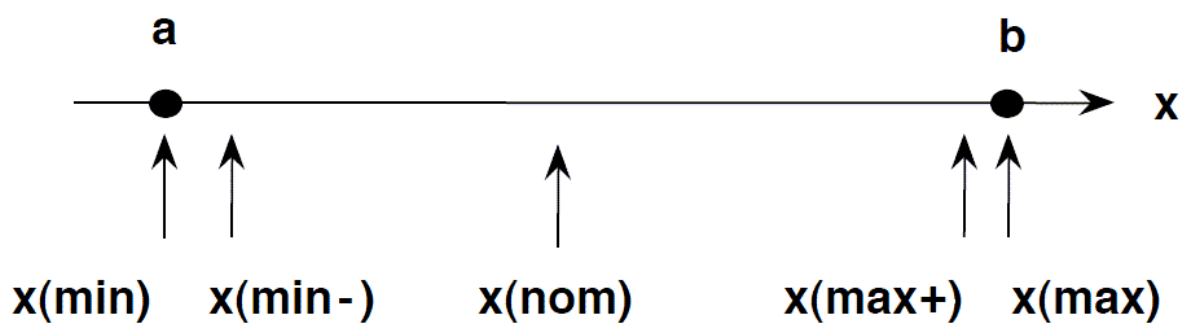

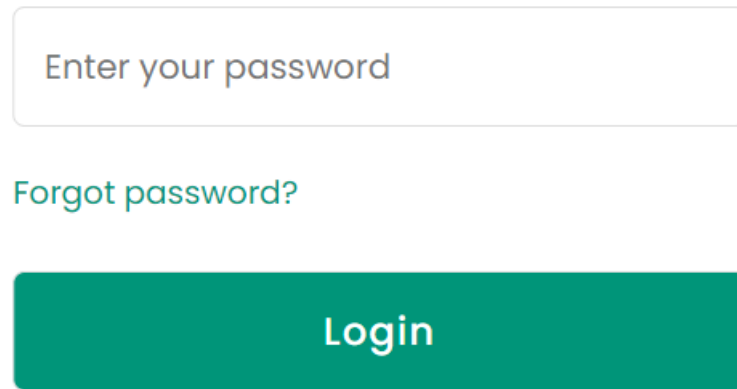

Fig: 6.4.1 Boundary analysis

Equivalence class partitioning:

Equivalence Partitioning or Equivalence Class Partitioning is type of black box testing technique which can be applied to all levels of software testing like unit, integration, system, etc. In this technique, input data units are divided into equivalent partitions that can be used to derive test cases which reduces time required for testing because of small number of test cases.

- It divides the input data of software into different equivalence data classes.
- You can apply this technique, where there is a range in the input field.

Fig: 6.4.2 Equivalence class partitioning

- Following password field accepts minimum 6 characters and maximum 10 characters
- That means results for values in partitions 0-5, 6-10, 11-14 should be equivalent

Test Scenario	Test Scenario Description	Expected Outcome
1	Enter 0 to 5 characters in password field	System should not accept
2	Enter 6 to 10 characters in password field	System should accept
3	Enter 11 to 14 character in password field	System should not accept

6.5 Test Cases

1. Test cases are divided into functional and non-functional category it will be described in a separate column
2. Test cases are assorted for all modules of Gr@zia so as to have complete code / module coverage.
3. Every cycle of testing can create this table and add date as per reference

TEST SCENARIO	verifying the create account

Test case id	Test case Description	Pre-condition	Steps	Test data	Expected	Actual results	Post conditions	Result
TC-Gr@z-001	Creating account using valid details.	1.Internet connectivity 2. Gr@zia app should installed.	Enter First & Last Name	First Name: Priyanka Last Name: Salvi	user should able to proceed fill other detail.	As expected	N/A	Pass
			Enter valid mobile number	9930160922	user should able to proceed fill other detail.	As Expected	N/A	Pass
			Enter valid Email ID	Salvipriyanka 1710@gmail.com	user should able to proceed to fill further detail.	As Expected	N/A	Pass
			Enter valid Password	*************	Click on continue button	As Expected	N/A	Pass
			Enter valid OTP It must be 6 digit	******	User able to see login page	As Expected	N/A	Pass

Test case id	Test case Description	Pre-condition	Steps	Test data	Expected	Actual results	Post conditions	Result
			Enter First & Last Name	First Name: Priyanka Last Name: Salvi	user should able to proceed fill other detail.	As expected	N/A	Pass
			Enter in valid mobile number	99301609	user should able to proceed fill other detail.	As Expected	N/A	Pass
TC-Gr@z-002	Creating account using in valid details.	1.Internet connectivity 2. Gr@zia app should installed.	Enter in valid Email ID	Salvipriyanka @gmail.com	user should able to proceed to fill further detail.	As Expected	N/A	Pass
			Enter In valid Password	*********	user able to proceed to fill Other details.	As Expected	N/A	Pass
			Enter OTP it must be 6 digit.	N/A	User will not able to recevie a OTP	As Expected	N/A	Pass

TEST SCENARIO ID	TS_002
TEST SCENARIO	verifying the Login page

Test case id	Test case Description	Pre-condition	Steps	Test data	Expected	Actual results	Post conditions	Result
TC-Gr@z-003	Login using valid details.	1.Internet connectivity 2. Gr@zia app should installed.	Enter valid Email	Salvipriyanka 1710@gmail.com	User should able to see Home page.	As expected	N/A	Pass
			Enter valid mobile number	9930160922		As Expected	N/A	Pass
			Enter valid Password	*************		As Expected	N/A	Pass

TEST SCENARIO ID	TS_002
TEST SCENARIO	verifying the Login page

Test case id	Test case Description	Pre-condition	Steps	Test data	Expected	Actual results	Post conditions	Result
TC-Gr@z-004	Login using in valid details.	1.Internet connectivity 2. Gr@zia app should installed.	Enter In valid Email	Salvipriyanka @gmail.com	User should not able to see Home page.	As expected	N/A	Pass
			Enter in valid mobile number	9930160		As Expected	N/A	Pass
			Enter valid Password	**********		As Expected	N/A	Pass

TEST SCENARIO ID	TS_003
TEST SCENARIO	verifying the search functionality

Test case id	Test case Description	Pre-condition	Steps	Test data	Expected	Actual results	Post conditions	Result
TC-Gr@z-005	checking website accept alphabets, number And special characters.	1.Internet connectivity 2. Gr@zia app should installed.	Enter Product name and brand name product.	Redmi 7 Pro	It will displayed the product.	As expected	N/A	Pass

TEST SCENARIO ID	TS_004
TEST SCENARIO	Verifying the product detail functionality.

Test case id	Test case Description	Pre-condition	Steps	Test data	Expected	Actual results	Post conditions	Result
TC-Gr@z-006	checking the product images.	1.Internet connectivity 2. Gr@zia app should installed.	1.Enter Product name and brand name product. 2. User should able to see the image properly. 3. User should able to see the different view of product. 4. User should able to zoom the product.	Redmi 7 Pro	It will displayed the product images.	As expected	It display the search product.	Pass
TC-Gr@z-007	Checking the product details		1. Enter product name . 2. user able to select desire size, color and brands	Women wear	1.User able to select the size, color and brand. 2. User able to see price and more product details	As expected	It display the product details	Pass
TC-Gr@z-008	Adding quantity		1.User able to select the quantity upto 10.	womens Kurta & Palazzo	User able to select quantity of product	As expected	It display quantity upto 10.	pass
TC-Gr@z-009	Checking the add to cart		1. user have to select one product. 2. user have to select size, colour, brand and quantity. 3. user have to click on Buy now.	womens Kurta & Palazzo	user able to click on buy now	As expected	It display payment processor page.	Pass

TEST SCENARIO ID	TS_005
TEST SCENARIO	verifying the Wishlist functionality

Test case id	Test case Description	Pre-condition	Steps	Test data	Expected	Actual results	Post conditions	Result
TC-Gr@z-010	Checking the wishlist	1.Internet connectivity 2.Amzon app should be installed. 3. User must have Amazon account.	1. select the product 2. click on Heart Icon	womens Kurta & Palazzo	User able to see the product on wishlist page	As expected	N/A	Pass

TEST SCENARIO ID	TS_006
TEST SCENARIO	verifying the Buy now functionality

Test case id	Test case Description	Pre-condition	Steps	Test data	Expected	Actual results	Post conditions	Result
TC-Gr@z-011	verifying with valid delivery details		1. user have to click on Buy Now. 2. Enter valid delivery Address.	Address: Room no. 2, C wing, Bhagirathi swapna Jadhav Colony, Belavli, Badlapur (w) MAHARASHTRA 421503	user should able to proceed fill other detail.	As expected	It display checkout page	Pass
TC-Gr@z-012	verifying payment processors	1.Internet connectivity 2. Gr@zia app should installed. 3. User must have Amazon account. 4. user must have Bank Account. 5. User must have atm card, debit or credit Card.	1. Select option Pay with credit/debit card. 2. Enter Card Number it must be 12 digit. 3. Enter valid name on card. 4. Enter valid expired date 5. Enter Valid cvv it must be 3 digit. 6. Enter valid OTP it must be 6 digit.	Card number: **** **** **** Name on card: Priyanka Expired Date: ** **** cvv: *** OTP: ******	Order will placed	As expected	It display your order page	Pass
			1. select Net banking. 2. choose your bank name. 3. click on login 4. Enter Account number, resigtered mobile number,	Bank name: SBI Account Number: **** **** **** Register Mobile number: 9930160922 branch code: ********	Order will placed	As expected	It display your order Page	Pass

TC ID	Description	Pre-conditions	Test steps	Test data	Expected result	Actual result	Output	Status
			branch code, CIF number 5. click on submit button 6. Enter valid OTP number	CIF number: ********** OTP: ******				
TC-Gr@z-012	verifying payment processors	1.Internet connectivity 2. Gr@zia app should installed. 3. User must have Amazon account. 4. user must have Bank Account. 5. User must have atm card, debit or credit Card.	1. select Other UPI Apps 2. User have to scan QR code	QR code will be display	Order will placed	As expected	It display your order Page	Pass
			1. select EMI 2. Enter Card Number it must be 12 digit. 3. Enter valid name on card. 4. Enter valid expired date 5. Enter Valid cvv it must be 3 digit. 6. Enter valid OTP it must be 6 digit.	Card number: **** **** **** Name on card: Priyanka Expired Date: ** **** cvv: *** OTP: ****** Confirm your EMI payment plan	Order will placed	As expected	It display your order Page	Pass
			1. Cash on Delivery	N/A	Order will placed	As expected	It display your order Page	Pass
TC-Gr@z-013	Verify that on successful payment		N/A	N/A	Order should be confirmed and email or text message should be delivered to customer.	As expected	It display your order page	Pass

6.6 Automation Testing Using Selenium

```java
package seleprog;

import org.openqa.selenium.By;
import org.openqa.selenium.WebDriver;
import org.openqa.selenium.WebElement;
import org.openqa.selenium.chrome.ChromeDriver;

public class Project_testing {

public static void main(String[] args) throws InterruptedException {
System.setProperty("webdriver.chrome.driver",
"C:\\Users\\pawan\\Downloads\\chromedriver_win32\\chromedriver.exe");

//              Launch chrome browser

WebDriver driver=new ChromeDriver();
driver.manage().window().maximize();
driver.get("file:///C:/Users/pawan/OneDrive/Desktop/Priyanka%20salvi/software%2
0testing/Priyanka%20Salvi_Shopping%20website_7670/shoppingwebsite.html");
Thread.sleep(2000);

// Registration
driver.findElement(By.xpath("/html/body/div[1]/div/nav/ul/li[4]/a")).click();
//      Navigate to sign-in
driver.findElement(By.xpath("/html/body/div/div[1]/div/span/label")).click();
//      email
driver.findElement(By.xpath("/html/body/div/div[2]/form/input[1]")).sendKeys("salv
ipriyanka@gamil.com");
//      password
driver.findElement(By.xpath("/html/body/div/div[2]/form/input[2]")).sendKeys("Priy
anka");
//      Confirm password
driver.findElement(By.xpath("/html/body/div/div[2]/form/input[4]")).sendKeys("Priy
anka");
//      sign-up
driver.findElement(By.xpath("/html/body/div/div[2]/form/input[4]")).click();

//      Login
driver.findElement(By.xpath("/html/body/div/div[2]/div/span/label")).click();
//      username
driver.findElement(By.xpath("/html/body/div/div[1]/form/input[1]")).sendKeys("salv
ipriyanka@gmail.com");
//      password
driver.findElement(By.xpath("")).sendKeys("Priyanka");
```

```
// Login button
driver.findElement(By.xpath("/html/body/div/div[1]/form/input[3]")).click();

//      search
//                                                  WebElement      search=
driver.findElement(By.xpath("/html/body/div[1]/div/div[2]/input")).sendKeys("Dress
");
//      search = driver.click();

//      About Us
driver.findElement(By.xpath("/html/body/div[5]/div[1]/a[1]")).click();
//  shipping and policy
driver.findElement(By.xpath("/html/body/div[5]/div[1]/a[2]")).click();
//      help centre
driver.findElement(By.xpath("/html/body/div[5]/div[1]/a[3]")).click();
//      term & condition
driver.findElement(By.xpath("/html/body/div[5]/div[1]/a[4]")).click();
//      privacy & policy
driver.findElement(By.xpath("/html/body/div[5]/div[1]/a[5]")).click();
//      Resposible and disclouser
driver.findElement(By.xpath("/html/body/div[5]/div[1]/a[6]")).click();
```

6.7 CUCUMBER

Feature file for login amazon

Feature: User tries to login to amazon.com with valid credentials

Scenario: Valid login

Given I am a user of amazon.com

When I log in using valid credentials

Then I should be logged in

Scenario: Invalid login

Given I am a user of amazon.com

When I log in using invalid credentials

Then I should not be logged in

Steps definition file for login amazon

```
package StepsDefinations;

import org.openqa.selenium.By;
import org.openqa.selenium.WebDriver;
import org.openqa.selenium.chrome.ChromeDriver;

import io.cucumber.java.en.Given;
import io.cucumber.java.en.Then;
import io.cucumber.java.en.When;

public class LoginSteps {

WebDriver driver;

@Given("I am a user of amazon.com")
public        void        i_am_a_user_of_amazon_com()        throws
InterruptedException {

7 CONCLUSION

The project entitled **GR@ZIA Website** was completed successfully. The system has been developed with much care and free of errors and at the same time it is efficient and less time consuming. The purpose of this project was to develop a web application and an android application for purchasing items from a shop This project helped us in gaining valuable information and practical knowledge on several topics like designing web pages using html CSS, and JavaScript. The project helped us understanding about the development phases of a project and software development life cycle. We learned how to test different features of a project

This project has given us great satisfaction in having designed an application which can be implemented to any nearby shops or branded shops selling various kinds of products by simple modifications. There is a scope for further development in our project to a great extend. A number of features can be added to this system in future like providing.
